**In the Center.**

Ohio has come nearer than most states to placing her county seats at the geographical center of the counties. Columbus, the capital, is almost exactly in the center of Franklin county, and the county is close to the geographical center of the state. There are more than twenty counties, each with its county town in the center of the county, and as many more with county towns only a few miles from the center.

**Have All of You Complied With The Law.**

A decision has been made by an Ohio court relative to the new partnership law, requiring the names of parties interested in a business to have its certificate of co-partnership legally advertised and filed with the clerk of the court in the county wherein said firm is located before any claims may be collected by law. The court holds that any firm who neglects to comply with the requirements of this law cannot legally collect any claims that it may have against any parties.

Remember that the holiday season is near at hand and that you should now begin to look around to see where you can buy to the best advantage. Saur & Balesley's are busy every day receiving and placing on sale a large and fine stock of holiday goods. The sale will begin on the first day of December and continue from day to day until the first day of January. This stock which is now being received comprises many things which are new and novel and cannot fail to please and attract attention. The photograph albums and illustrated family bibles are more nicely bound and very much cheaper than ever before. Either of these make a very nice gift for parent or child and are always appreciated and will be preserved and last a life time. Call at Saur & Balesley's headquarters for holiday goods of every description.

**A Joke.**

One of the good wives of Harrison township was startled the other morning on learning that a neighbor lady had committed suicide. It was with difficulty the morning work was gone through with, so unnerved was the lady, and it was not long thereafter that she was on her way to administer what she could in her humble way to the afflicted family. When nearing the home of her neighbor, she could discover nothing which looked as though death had paid her friends a visit. The husband was busy husking corn in the field, the children moving around in their usual blithesome way, and the reported suicide found attending to her daily duties! Someone had played a huge joke, but the joy at finding the report not true, precluded the good wife from getting angry.

**Gen. Gibson Dead.**

General Wm. H. Gibson died at his home in Tiffin on the 23d, after a lingering illness, the foundation of which was contracted in the army. Gen. Gibson was born in Jefferson county, Ohio, on May 16, 1821; in the same year his parents removed to Seneca county, where the General has ever since resided. He was one of the best known men in the State and was one of the best off-hand orators in the country. At the time of his death he was postmaster at Tiffin, to which position he was appointed by President Harrison. In his death Seneca county has lost one of its most gifted citizens. The funeral occurred on Monday and was largely attended by citizens from all over the State.

**Napoleon Boy to Wed.**

We clip the following from the Toledo Commercial of Sunday last: It will be a surprise to the many friends in Ohio, of Ensign Harry Faust of the U. S. navy, to learn of his approaching marriage to Miss Frances Patterson of Westfield, N. Y., on January 2, 1895. It seems to be a peculiarly happy union of two exceptionally brilliant young people. Miss Patterson was honored last year by the State of New York by being selected as one of the commissioners of the World's Fair, and was the youngest lady on the national board. Ensign Faust was for three years secretary to Admiral Benham and was with him during his eventful and patriotic career at Rio. It is understood that the wedding will be a large and of course a very recherche affair. Miss Katherine Pringle, of Springfield, Ohio, will be maid of honor and Mr. Will P. Tyler, of Toledo, best man.

**Are You Sure?**

The question is to whether this is the 18th or the 19th century is again being mooted in certain quarters. Unless one has been missed in the count, it is the 18th. If the 2d century was the 2d to the end of it, as it certainly was, then the 18th, in its order, will be the 18th to the end of it. Take it silver dollars, if you have them, (and if you haven't, we'll borrow them for you), and expend them serially, a penny at a time, and you will find that, while you have paid out the last penny of the 18th dollar, you have not been drawing upon a 19th dollar. Just so the present passing days are all of the 18th century.

**Look Out for Bogus Eggs.**

The Ohio State Food Commissioner has declared that patent eggs shall not be sold in the markets of the State, and has seized a shipment of them in transit from the manufacturer in New York to a Cincinnati dealer. The dedicated egg has sold at 45 cents per pound, and one pound is equivalent to six dozen eggs. The commissioner's chemist says the albumen in the dedicated egg is obtained from the eggs of fish eating birds, which can be secured by the millions along the Atlantic coast. They are not fit for food and the albumen alone is taken from them in making dedicated eggs. The patent is largely used by hotels and bakeries.

**Let Them In.**

On Friday afternoon of this week our good Methodist people will vote upon the question as to whether women will be allowed to act as delegates in the annual conference of the church. It seems that women are debarred under the present rules regulating the conference, which require delegates to be male members. In this enlightened age, the vote should be unanimous in favor of the women, as they are the very mainstay of the church to-day. And this being a fact, why should woman not sit in the councils of the church? Give them such privilege, for their faithful Christian work entitles them to it, and we hope to record that the vote of the M. E. congregation of Napoleon will be unanimous in favor of the women.

## From High Government Authority.

No authority of greater experience on food products exists than Dr. Henry A. Mott, of New York. Dr. Mott's wide experience as Government Chemist for the Indian Department, gave him exceptional opportunities to acquaint himself with the qualities and constituent parts of baking powders. He understands thoroughly the comparative value of every brand in the market, and has from time to time expressed his opinion thereof. On a recent careful re-examination and analysis he finds

**Dr. Price's Cream Baking Powder** superior to all others in strength, purity, and efficiency. Dr. Mott writes:—

"New York, March 20th, 1894.

I find Dr. Price's Cream Baking Powder to be superior to all others, for the following reasons:—

1st. It liberates the greatest amount of leavening gas and is consequently more efficient.

2nd. The ingredients used in its preparation are of the purest character.

3rd. Its keeping qualities are excellent.

4th. On account of the purity of the materials and their relative proportions, Dr. Price's Cream Baking Powder must be considered the acme of perfection as regards wholesomeness and efficiency, and I say this having in mind certificates I have given several years ago respecting two other baking powders.

The reasons for the change in my opinion are based on the above facts and the new method adopted to prevent your baking powder from caking and deteriorating in strength.

**The Paundling Murder.**

On last Thursday the preliminary trial of the suspected Paundling murderers was held. Cain was released, as no evidence could be adduced to hold him. Hart and Brindle were bound over to court, and it is generally believed that they killed the Hart children. The colored preacher, David Merritt, was held as a witness, and it is believed that he knows all about the horrible crime. The feeling against the suspected murderers is intense and Judge Lynch may yet be called upon to perform the last act in the tragedy.

**A Good Hint.**

An exchange gives the following hint to farmers: "We were a little surprised a few days ago to find fifty dollars on the road beside the hedge at the corner of a prominent farmer's home, and more so to find it had lain for several months unmolested, but beginning to look much the worse for exposure. The money was in the shape of a corn planter, that will have to be replaced with a new one before long unless cared for better. If we had the money that is lost every year in this manner by neglect of farm machinery we would be running a newspaper."

There is no longer an excuse for any one having clothing made to order away from Napoleon. Henry Meyer gives fits that can't be beat in any city. If you doubt it, or want proof, observe the suits he is putting out in town. For neat fits, quality of goods and honest prices he excels.

**Juries Declared Legal.**

The question of the legality of juries under the new law has been decided by Judge Nye in the Lorain county court. The decision was as follows: First—A jury where names are placed in the wheel and drawn therefrom as provided by the act of April 23, 1894, is a legally constituted jury. Second—The commissioners of jurors appointed in accordance with said statute are commissioners de facto if not de jure, and so long as they hold the position and perform the duties required of them by said statute their acts are legal. The acts of an officer de facto when questioned collaterally are as binding as those of an officer de jure.

The decision is the first of the kind rendered in the State, although the question has been brought up in several counties.

Quite a number of invited friends were witnesses of the affair, after which, by the hands of Mrs. Rollie Myers, an elegant dinner was served. Mr. Allen Myers and bride will make Lime City their home, and the other couple will locate at McClure. These young people have the best wishes of a host of friends.
